

CALIFORNIA PROVIDERS

Medicaid Cuts Are Changing How You Serve.

Here's What to Know—and Do—Now.

As federal Medicaid cuts loom, California providers and clients are bracing for impact. It might feel like all you can do is wait—but as JFK said, *“The time to repair the roof is when the sun is shining.”*

Your next steps now can help safeguard both your client connections and your operational sustainability. We're here to help you move forward with clarity.

What to Know

CALIFORNIA'S NUMBERS

~\$149.8 B

Federal Medicaid Cuts to California (10 Years)

17%

% of 10-year baseline spending

SERVICE & OPERATIONS IMPACT

- * Federal matching funds for Medi-Cal (essential for ~ 40% of California residents) will slow.
- * Enrollment will likely drop, affecting your client base and revenue.
- * Expect reductions and delays in reimbursement.
- * New eligibility rules will add paperwork and billing complexity, raising audit risks for your team.

What The State Is Doing

California has approved a \$321B budget revision in response to the federal cuts outlined in H.R. 1 (OBBA). To manage the deficit, the state is delaying loan repayments and drawing on reserves. These are temporary measures. Providers shouldn't count on the state for long term relief.

What to Do About It

This moment calls for a shift from reactive documentation to strategic compliance—and we want to help you do more than just survive the upcoming cuts. **Radicle Health's EHRs help your organization adapt with built-in support.** Day-to-day, our EHRs remove friction, so your team can work smarter, with fewer clicks and clearer workflows:

- + Cutting denials and audit risk
- + Capturing the data new policies require, automatically
- + Making care coordination between partners easy

How We Help You Stay Resilient

- * **Integrated Billing & Claims Management**
Automate claims, reduce denials, and keep Medicaid reimbursement steady even as policies shift.
- * **Configurable Documentation Tools**
Customizable notes and templates, care plans, and treatment workflows align with Medicaid and state standards, minimizing gaps that trigger audits or denials.
- * **Audit-Ready Compliance & Reporting**
Built-in audit trails and strong reporting keep you inspection-ready and aligned with evolving Medicaid oversight.
- * **Role-Based Security & PHI Protection**
Protect sensitive data, stay HIPAA compliant, and reduce security risks during audits and data exchanges.

Stay ahead of OBBA impact and future policy shifts
