

## NEW JERSEY PROVIDERS

# Medicaid Cuts Are Changing How You Serve.

## Here's What to Know—and Do—Now.

As federal Medicaid cuts loom, New Jersey providers and clients are bracing for impact. It might feel like all you can do is wait—but as JFK said, *“The time to repair the roof is when the sun is shining.”*

Your next steps now can help safeguard both your client connections and your operational sustainability. We're here to help you move forward with clarity.

## What to Know

## NEW JERSEY'S NUMBERS

# ~\$28.7 B

Federal Medicaid Cuts to New Jersey (10 Years)

# 18%

% of 10-year baseline spending

## SERVICE &amp; OPERATIONS IMPACT

According to the New Jersey Department of Human Services, an estimated 350,000 eligible residents are expected to lose healthcare coverage due to bureaucratic barriers.

Additionally, up to 25,000 legal immigrants are projected to lose Medicaid coverage in 2026 under current state estimates.

- \* Coverage losses will affect your client base and revenue.
- \* Reimbursement reductions and delays are likely.
- \* New eligibility rules will increase paperwork and billing complexity, raising audit risks for your team.

## What The State Is Doing

New Jersey lawmakers are reviewing the state budget to reconcile federal cuts with an existing \$1.5 billion shortfall. Governor Murphy has instructed state agencies to prepare mitigation plans ahead of November 1, 2025. For providers, the message is clear: long-term support from the state remains uncertain.

## What to Do About It

This moment calls for a shift from reactive documentation to strategic compliance—and we want to help you do more than just survive the upcoming cuts. **Radicle Health's EHRs help your organization adapt with built-in support.** Day-to-day, our EHRs remove friction, so your team can work smarter, with fewer clicks and clearer workflows:

- + Cutting denials and audit risk
- + Capturing the data new policies require, automatically
- + Making care coordination between partners easy

## How We Help You Stay Resilient

- \* **Integrated Billing & Claims Management**  
Automate claims, reduce denials, and keep Medicaid reimbursement steady even as policies shift.
- \* **Configurable Documentation Tools**  
Customizable notes and templates, care plans, and treatment workflows align with Medicaid and state standards, minimizing gaps that trigger audits or denials.
- \* **Audit-Ready Compliance & Reporting**  
Built-in audit trails and strong reporting keep you inspection-ready and aligned with evolving Medicaid oversight.
- \* **Role-Based Security & PHI Protection**  
Protect sensitive data, stay HIPAA compliant, and reduce security risks during audits and data exchanges.
