

NEW YORK PROVIDERS

Medicaid Cuts Are Changing How You Serve.

Here's What to Know—and Do—Now.

As federal Medicaid cuts loom, New York providers and clients are bracing for impact. It might feel like all you can do is wait—but as JFK said, *“The time to repair the roof is when the sun is shining.”*

Your next steps now can help safeguard both your client connections and your operational sustainability. We're here to help you move forward with clarity.

What to Know

NEW YORK'S NUMBERS

~\$102.2 B

Federal Medicaid Cuts to New York (10 Years)

16%

% of 10-year baseline spending

SERVICE & OPERATIONS IMPACT

More than 1 million low-income New Yorkers are covered by the state's Essential Plan, which is facing \$750 million in cuts this coming fiscal year.

These cuts, combined with federal Medicaid reductions, are likely to impact day-to-day operations.

- * Enrollment in Medicaid and the Essential Plan is expected to drop, affecting your client base and revenue.
- * Reimbursement reductions and delays are likely.
- * New eligibility rules will increase paperwork and billing complexity, raising audit risks for your team.

What The State Is Doing

New York is already facing a \$7.5 billion budget shortfall, along with mounting financial uncertainty from Wall Street. Governor Hochul has deployed a fiscal “SWAT” team to identify areas for cuts—and potential tax increases. For providers, the takeaway is clear: long-term relief from the state isn't guaranteed.

What to Do About It

This moment calls for a shift from reactive documentation to strategic compliance—and we want to help you do more than just survive the upcoming cuts. **Radicle Health's EHRs help your organization adapt with built-in support.** Day-to-day, our EHRs remove friction, so your team can work smarter, with fewer clicks and clearer workflows:

- + Cutting denials and audit risk
- + Capturing the data new policies require, automatically
- + Making care coordination between partners easy

How We Help You Stay Resilient

- * **Integrated Billing & Claims Management**
Automate claims, reduce denials, and keep Medicaid reimbursement steady even as policies shift.
- * **Configurable Documentation Tools**
Customizable notes and templates, care plans, and treatment workflows align with Medicaid and state standards, minimizing gaps that trigger audits or denials.
- * **Audit-Ready Compliance & Reporting**
Built-in audit trails and strong reporting keep you inspection-ready and aligned with evolving Medicaid oversight.
- * **Role-Based Security & PHI Protection**
Protect sensitive data, stay HIPAA compliant, and reduce security risks during audits and data exchanges.
