

WISCONSIN PROVIDERS

Medicaid Cuts Are Changing How You Serve.

Here's What to Know—and Do—Now.

As federal Medicaid cuts loom, Wisconsin providers and clients are bracing for impact. It might feel like all you can do is wait—but as JFK said, *“The time to repair the roof is when the sun is shining.”*

Your next steps now can help safeguard both your client connections and your operational sustainability. We're here to help you move forward with clarity.

What to Know

WISCONSIN'S NUMBERS

~\$6.7 B

Federal Medicaid Cuts to Wisconsin (10 Years)

8%

% of 10-year baseline spending

SERVICE & OPERATIONS IMPACT

According to Wisconsin's Department of Health Services, 270,000 residents would lose health insurance under the One Big Beautiful Bill (OBBBA). The policy would also add red tape to Medicaid and FoodShare programs.

- * Coverage losses will affect your client base and revenue.
- * Reimbursement reductions and delays are likely.
- * New eligibility rules will increase paperwork and billing complexity, raising audit risks for your team.

What The State Is Doing

Governor Evers acted quickly to sign a \$111 billion two-year state budget bill that struck some compromises. Why the rush? \$1 billion in additional Medicaid revenue for Wisconsin hospitals was at stake. The budget included a provision increasing the Medicaid-related hospital assessment from 1.8% to 6%. For providers, the message is clear: long-term state support remains uncertain.

What to Do About It

This moment calls for a shift from reactive documentation to strategic compliance—and we want to help you do more than just survive the upcoming cuts. **Radicle Health's EHRs help your organization adapt with built-in support.** Day-to-day, our EHRs remove friction, so your team can work smarter, with fewer clicks and clearer workflows:

- + Cutting denials and audit risk
- + Capturing the data new policies require, automatically
- + Making care coordination between partners easy

How We Help You Stay Resilient

- * **Integrated Billing & Claims Management**
Automate claims, reduce denials, and keep Medicaid reimbursement steady even as policies shift.
- * **Configurable Documentation Tools**
Customizable notes and templates, care plans, and treatment workflows align with Medicaid and state standards, minimizing gaps that trigger audits or denials.
- * **Audit-Ready Compliance & Reporting**
Built-in audit trails and strong reporting keep you inspection-ready and aligned with evolving Medicaid oversight.
- * **Role-Based Security & PHI Protection**
Protect sensitive data, stay HIPAA compliant, and reduce security risks during audits and data exchanges.
